

Use this Lenten Season as
a time of reflection and growth

L E N T E N S E R I E S :

IS YOUR GOD TOO SMALL?

Is your God a punishing God...a judging God? How does your image of God differ from the God of your childhood? Sometimes it's hard to shake an image we grew up with. Do you feel as though somehow you never measure up when it comes to pleasing God?

Or do you simply want to broaden your image of God?

If you fit into one or more of the above categories, our Lenten Series is for you! This Lent, Father Jerry Plotkowski and Gerry Wood plan on using the Gospel of Luke to explore how **Luke reveals in Jesus a God of compassion and forgiveness, a God who seeks out the poor and the sick and lovingly welcomes sinners home.**

The Goal of the Lenten Series is to broaden our understanding and experience of God's compassion and, with the help of the Spirit, come to a greater awareness of God's unconditional love for each one of us.

*Come and see how this awareness is both
freeing and energizing!*

Christ the Healer: A Journey with Luke's Gospel

Luke's very engaging portrait of Jesus focuses on his activity as a healing prophet. The notion of healing includes many aspects:

- binding wounds
- curing disease
- saving the lost
- breaking down barriers and
- reconciling sinners

This Gospel is often referred to as *the Gospel of our times* with its emphasis on social justice. He shows Jesus' mission as bringing the Good News to the poor and oppressed and responding to needs of various types.
